Community Impact

Help Me Grow Utah is an information and referral network that aims to connect families and communities with the knowledge and resources they need to make a difference in the lives of children. Help Me Grow supports prenatal parents and families with children through age 8, offering services at no cost in both English and Spanish. For more information, visit our website at: helpmegrowutah.org

The early years are a crucial time in a child's life, their brains are growing rapidly and they are learning foundational skills that will impact the rest of their lives. Much of this learning takes place while a child plays! We like to provide parents with activity ideas and supplies that they can do with their child to build developmental skills. This particular activity helps a child build Personal/Social skills.

We utilize the activity kits in much of our community outreach. Many are shared directly with families we see, but also shared with community partners to share with the children they work with to help encourage fun developmental activities.

HELP ME GROW UTAH

Emotions Card Game! This activity helps your child identify their feelings. Test their memory by putting all cards face down then take turns flipping over two cards at a time until a match is found. When a match is found help identify the emotion.

They can also play "Emotion's Go Fish" by starting with up to 5 cards in each hand and asking each other if they have a specific emotion card. Drawing from the middle pile if the other player doesn't have the card and says "go fish".
