

How to Make a No Sew Fleece Blanket (W/out Bulky Knots)

Every child that comes to Liberty House for services receives a stuffed animal and blanket to take home. It is a simple reminder to them that someone cares. This is a quick and easy project!

Supplies needed:

- 2 Yards Plain Color Fleece
- 2 Yards Patterned Fleece
- Sharp sewing scissors or rotary cutter
- 4-Inches Square template

I like to use a pattern & a plain color fleece. This example is a teen/adult size—our most needed size.

Layout your fleece on top of each other. Smooth out wrinkles and match up edges as best you can. Don't pull too much as fleece has a bit of stretch to it.

Trim edges. Please don't skip this step. The blankets turn out so much nicer when the selvage is trimmed off!

Using your template, place on corner and cut out. Do this on all four corners.

Sharp scissors will make this part much easier!

Start cutting a four inch strip along the edge. These are 1 1/4 inch strips.

After you cut the four inch strips,
fold them up.

Carefully make a small slit on the
fold. This is your hole for 'tying', so
the smaller the better.

Turn the strip up & pull down in-
side, through the slit.

Tug gently to make it taut.

Continue down the row with each strip.

This knotting gives the blanket a nice look to the plain color side of the blanket. Also no bulky knots to poke you in the back when you are wrapped up in it!
