

# Volunteer Opportunities – Build and Repair Homes

## New Construction

- Build new homes in partnership with working families! Volunteers help with all phases of building, and tasks may include framing walls, putting up siding, installing doors and trim, painting, and more!
- Build days are Thursdays - Saturdays.
- **HOURS:** 9am - 4:30pm (*Memorial Day - Labor Day: 7:50am - 3:30pm*)
- **AGE REQUIREMENT:** Volunteers must be **16+**.

**For all sites:** We do ask that volunteers commit to a full shift.

**NOTE:** Please understand that home building activities can be extremely variable due to issues like poor weather, contractor schedules, permit timelines, etc. Last minute changes occur due to circumstances out of the direct control of Habitat.

*This means that we can't tell you exactly what tasks you will be doing when you go out on site. We appreciate your group's willingness to work on the tasks that are most needed to keep homes on schedule!*
