

Yulia | Kharkiv, Ukraine

We are a family from Ukraine from the city Kharkiv. Yulia (40), Rustam (35), son Rustam (8), son Damir(4). Rustam has higher education in marketing and finance and experience in analytical thinking. Before the war, he had a small auto service station. He is a very qualified auto mechanic, auto electrician, etc. with great experience and good reviews. Currently he is studying computer programming languages. He speaks Ukrainian, Romanian, Polish and English. I (Yulia) have higher education in economics. I worked as a methodologist at the university for 20 years. I have a great desire to study English. Rustam (son) likes swimming and dancing. Damir likes to sing and is just a funny guy who loves his family very much.

On February 24, 2022, our family woke up at 4:30 in the morning to the sounds of explosions. At that very moment, we decided to leave the city and go as far as we could, but didn't know where exactly. When Rustam went outside with his son, he saw an airplane that dropped a bomb not far away. Our son is afraid of airplanes now. We drove to Poland for 9 days, through Moldova, Romania, Hungary and Slovakia. Our trip was very difficult, but we are grateful for those people who helped us along the way. We left our whole lives in Ukraine and now we are starting all over again. After all, everything we do is for the future of our children.
